"Ayu and her language services team are top notch. They provide professional language translation services and take the time to understand the topics that they will be translating to provide the best possible service to both the instructor and the intended audience. Because of the dedication to her work and the time she takes to understand the material the challenges of presenting complex technical subjects to our students was made easy. Working with Ayu was a genuine pleasure and I would recommend her for any language service or translation needs."

"Ayu and her team are extremely professional at their job. They provided a seamless service to a complex workshop process of 3 days for us interpreting Bahasa Indonesia to English and vice versa for 35 participants. This was a technical workshop about natural resources in Indonesia and the participants using the interpretation service were very complimentary. The team was quiet and non intrusive handling technicalities of headsets and their distribution very efficiently."
